welcome to Marwood...

Marwood is a private residential home providing a comfortable home-from-home environment for those who have difficulties associated with old age, long-term physical disability and illness.

Experienced staff are able to provide the highest level of personal and emotional care and yet, at the same time, gently encourage each person to maintain an individual level of independence and choice.

- Short or long term care - 24 hour professional care with a personal touch - single or twin rooms
- ensuite facilities available - social activities - private car park - large secure patio area - wheelchair accessibility - visitors welcome

Our high levels of care are achieved through our qualified registered manager and dedicated care staff, all of whom have experience of working in the care home environment and who attend regular training sessions.

inspected October 2017

"The staff are friendly and professional, treating residents with care and respect"
- Sue H (Sister-in-law of resident)

care and activities...

High-quality, optimum care is of paramount importance to anybody considering residential care and the team at Marwood share this as a priority. Each and every resident is treated as an individual with an emphasis on person centred care.

- We have our own in-house laundry which caters for day-to-day washing requirements - Chiropody and hairdressing services are available at a small charge - visitors car parking is available.

We also have a full time activity worker at the care home whom has been here for many years:

- Range of activities to suit all
- Mental and physical stimulation
- Trips out into the community
- Visits from local school children
- Visiting singers etc

dining and nutrition...

We realise the fundamental importance of nutrition and providing a healthy, balanced diet for all of our residents is part of our philosophy here at Marwood Residential Home. Our cooks make three freshly prepared meals each day.

- Menus are provided for residents to choose their meals and various diets are catered for including diabetic, vegetarian, gluten free, lactose free and many more.
- Tea and biscuits are served mid-morning and mid-afternoon as well as when required.
- Meals can be provided for visitors if required.

If the residents require further refreshments at other times of the day they need only ask any of the care assistants.

“Very clean just like being at home. Highly recommended care home” - DK (daughter of resident)

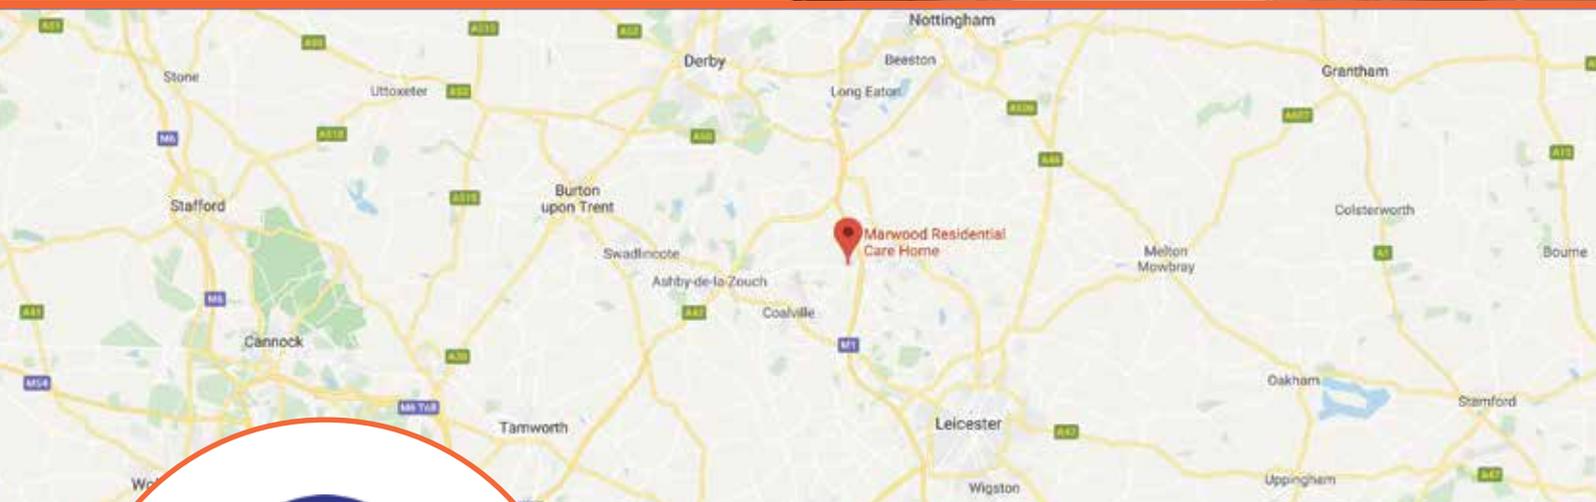

accomodation and facilities

There are 24 bedrooms at Marwood Residential Home, most of which have en-suite facilities. Residents are welcome to bring their own furniture and mementos to ease the transition into the Care Home and create a home-from-home environment.

In addition to this, we have several bathrooms, which are specially adapted for those who are less able.

There are three sitting rooms where the residents can relax, read or watch television. The light and airy dining room is also situated on the ground floor in our beautiful conservatory, which looks out onto the garden.

We also have outside seating areas where our residents can sit in fine weather to enjoy the lovely garden.
